

MonDak Portables, LLC started manufacturing restroom trailers in 2013. We completed over 50 Comfort Restroom Trailers for our own rental company in ND. These units provided AC and Heat for the users comfort. We then expanded into retail sales by attending the WWett Show in Indianapolis, Indiana in 2017. We were able to showcase our manufacturing skills with our Comfort Stations and Toilet Trailers. After seeing that there was a market for special order trailers, we expanded into other markets. In 2019 we manufactured some Honeywagon Trailers for a Hollywood company.

Core Competencies

Trailer Manufacturing Services

Differentiators

- Over a decade of experience serving the needs of Federal Agencies, Commercial Companies, Oil Fields, and Special Events throughout the Midwest
- DoT/OSHA/PEC trained service technicians for safety standards
- During the last few years we have manufactured several different types of trailers. We concentrate mostly on special order trailers for our customers. Trailers are designed by a professional draftsman using state of the art CAD software.
- We attended a Disaster Show in Miami and have built many special orders. Below is a list of the special order trailers we have manufactured. At our manufacturing shop, we also have a welding division and offer contract welding of tanks.
